3. OBLIGATIONS OF THE CARRIER

3.1 The Carrier agrees to maintain the temperature of the product within a tolerance of 3° Celsius of the temperature at which the product is loaded, provided that the temperature (see clause 2.2) was correctly indicated and that the temperature of the product i.e. **a specific** carton / box is probed at the time of being placed in the vehicle as well as at the time of being delivered and such checks are witnessed by a representative of the Carrier.

3.2 As refrigeration units are only designed to maintain the temperature of the load, no claims will be considered in accordance with clause 11.6.2 if the initial temperature of the load was above / below the required temperature. Drivers cannot accept responsibility for product temperature when loading.

It is the Customer's responsibility to ensure that their consignment's temperature is in adherence to the industry standard of chilled goods at +4° Celsius and frozen goods at -18° Celsius.

The date of product manufacturing plays an important role in that, under pressure, the Customer may produce at short notice and the product cannot be cooled down to the industry standard and will then impact on the temperature of other products on the same pallet and / or on the total load being transported. Various specific temperatures may not be co-loaded / consolidated on one (1) pallet i.e. chilled and dry products as the warmer product will always negatively impact the chilled products.

Insofar as the Carrier can be held responsible for incorrect temperature of product upon the delivery, it is only applicable if it can be proven that the Carrier was negligent during the period from collection until delivery of the product and / or that there was a malfunction of the cooling unit in excess of two (2) hours on the refrigerated vehicle and then only a claim may be submitted by the Customer at the cost price of the product value in accordance with clause 10.

4. PRODUCT TEMPERATURE MEASUREMENT

The only acceptable method of product temperature measurement will be an invasive (destructive) method whereby the product is physically penetrated by the temperature measurement device needle as per the

'REGULATIONS GOVERNING GENERAL HYGIENE REQUIREMENTS FOR FOOD PREMISES & THE TRANSPORT OF FOOD (R962)'.

Any other method to ascertain the temperature of the product will not be accepted by the Carrier and no insurance cover shall be available and / or no claim for temperature deterioration will be considered should the above procedure not be followed.

Should there be a discrepancy of required temperature between the Booking Confirmation and LMC Express (Pty) Ltd Waybill and / or Proof of Delivery (POD) document, the required temperature entered on the Waybill and / or Proof of Delivery (POD) document will be deemed as the correct required temperature by the Customer.

5. COSTS AND FEES

5.1 The Customer shall pay the freight and all other lawful charges accruing on the goods in accordance with the Carrier's Booking Confirmation.

5.2 LMC Express allows one (1) hour for consignments consisting of less than six (6) pallets; two (2) hours for consignments exceeding six (6) pallets and thirty (30) minutes for consignments consisting of a half pallet. to suspend performance of any of its obligations under this Agreement until such time as the Customer has rendered payment in full of all outstanding amounts due to the Carrier.

6.3 Customer accounts which exceed their payment terms due dates will be closed after the fourth (4th) overdue payment is received. Thereafter all business will be conducted on a 'Cash before Loading' basis (CBL). Requests for shipment of CBL accountholders must occur 48 hours prior to collection.

6.4 The Customer will be charged a banking fee and / or a deposit fee for all Cash deposits and / or Cash payments.

7. DELIVERY TERMS

7.1 The Carrier undertakes to transport and to deliver the Goods in accordance with the Customer's instructions as reflected on the Booking Confirmation, but is not responsible for delays which are caused by events beyond its control.

7.2 Should the Carrier be unable to collect and / or deliver the Goods for any reason outside of its control (including the Customer's refusal to accept the Goods), the Carrier shall be entitled (at its discretion) to return, detain, store, sell, abandon or destroy the Goods, or any part thereof, at the expense of the Customer after 14 days. The date of delivery as indicated on the LMC Express waybill will be considered as day one (1).

Customer shall be liable for all reasonable costs incurred in the return of such Goods.

7.7 In the event of the Carrier being compelled to dispose of such Goods by reason of their perishable nature or for whatsoever other reason, the Carrier shall not be liable for any damage to or loss of such goods or any loss or damage arising out of the disposal thereof and the Customer shall be liable to the Carrier for all costs incurred in connection with the disposal of such Goods.

7.8 The Customer warrants the accuracy of all descriptions, values and other particulars furnished to the carrier and indemnifies the Carrier against all claims, losses, penalties, damages, expenses and fines whatsoever arising from any inaccuracy or omission.

7.9 The onus of establishing the condition of the Goods at the time of acceptance and delivery thereof by the Carrier shall rest on the Customer.

7.10 The signature of the Customer on the waybill, in acknowledgement of having received the Goods in good order and condition, shall be prima facie proof of the Goods having been properly delivered by the Carrier in good order and condition.

8. THE CARRIER'S SECURITY

8.1 The Carrier shall have a lien over all Goods for monies which are due and payable to the Carrier by the Customer in respect of any Services rendered by the Carrier to the Customer.
